

Sitting With Pride

Caregiver Profile Fields

Ask client:

Full name
Chosen Name
Pronouns
Profile photo
Location (zip code)
Experience and years
Certifications (CPR, etc.)
Services Offered (Live-In, Full-Time, Part-Time, Occasional, Travel, Infant Specialist, Doula, Special Needs, Elderly Companion (non-medical))
Hourly rate
Availability
Bio / About
Languages spoken
Identity preferences (optional, sensitive)
Background check status (**manual** or automated?) - Details Below

Checkr API docs

Build:

- User onboarding flow
- Consent + disclosure
- Status tracking (pending / clear / flagged)

Steps for that:

User signs up (purchases background check and verification for
They enter info
Consent form is handled automatically
Background check runs in the background
You get a **clear / consider result inside your dashboard**

It also needs to be noted on that page to:

Get user consent

Provide **adverse action notices** if someone fails

Handle data securely

How Pricing is going to work for Caregivers to sign up:

Caregiver Tiers & Pricing (Simple Version)

1. Profile Setup (Tier is called **Community Profile**) (Free)

- * Sign up and create profile
- * Add bio, photos, experience
- * Profile is NOT visible to families

2. Approved Caregiver * (\$35 one-time– REQUIRED) (Tier is called **Pride Verified Caregiver**)

- * Background check + DMV check (Checkr API)
- * Profile becomes visible to families
- * Can receive messages and booking requests
- * Standard search placement
- * Limited responses (3–5 per day)
- * Delayed access to new requests (10–30 min)
- * “Approved” badge

3. Priority Caregiver (**Pride Priority Caregiver**) (\$19/month) – **PREMIUM**

Includes everything in Pride Verified Caregiver and:

- * Top placement in search results
- * Featured in “recommended caregivers”
- * Instant access to new job requests
- * Unlimited responses
- * Highlighted profile
- * “Priority” badge
- * Increased overall visibility

Flow:

Everyone must:

Unless they are a Community Profile (Free), they must:

👉 Pay **\$35 one-time** → become **Pride Verified Caregiver**

Then optionally:

👉 Upgrade to **\$19/month** → become **Pride Priority Caregiver**

Family Profile Fields

Ask client:

Family name

Chosen Names

Pronouns

Location (zip code)

Number of children

Ages of children

Care type needed (Live-In, Full-Time, Part-Time, Occasional, Travel, Infant Specialist, Doula, Special Needs, Elderly Companion (non-medical))

Schedule (part-time, full-time, etc.)

Special needs (if any like pets, allergies, etc.)

Home environment notes

Preferences (identity/cultural match)

Hourly rate

Family Tiers & Pricing (Queer-Branded, Growth-Focused)

1.  Community Family (Free) – DEFAULT
 - Free to sign up and browse caregivers
 - Can view profiles and availability
 - Pay 8% booking fee on each completed booking
 - Standard access to messaging and booking
2.  Pride Family (\$12/month) – MOST POPULAR
 - Includes everything in Community Family PLUS:
 - Reduced booking fee (5%)
 - Priority access to Pride Priority Caregivers
 - Faster responses / priority messaging queue
 - “Pride Family” badge (builds trust with caregivers)
3.  Chosen Family (\$25/month) – PREMIUM
 - Includes everything in Pride Family PLUS:
 - Lowest booking fee (2–3%)
 - Top priority access to highest-rated caregivers
 - Featured to caregivers (caregivers see them first)
 - Concierge-style support (future feature)
 - “Chosen Family” badge

Core Flow:

- Family signs up → defaults to Community Family (free)
- Books caregiver → pays 8% fee
- Can upgrade anytime to reduce fees and get priority access

Core Features for MVP Build (Updated)

We are building a 2-sided platform with Caregivers and Families. Keep everything simple and scalable.

1. User Roles

- * Two account types: Caregivers and Families
- * Separate dashboards and permissions

2. Caregiver Verification

- * \$35 one-time verification (background + DMV via Checkr API)
- * Status: Pending / Approved / Flagged
- * ONLY Approved caregivers are visible and bookable

3. Payments (use Stripe)

Caregivers:

- * \$35 one-time verification
- * \$19/month subscription (Pride Priority)

Families:

- * Free tier → 8% booking fee
- * Paid tiers → reduced booking fees (5%, 2–3%)
- * Monthly subscriptions supported

4. Booking System (basic)

- * Caregiver sets availability
- * Family sends booking request
- * Caregiver accepts/declines
- * Mark job as completed

5. Search & Location

- * Families can search caregivers by ZIP code
- * Show caregivers within a defined radius (ex: 5–25 miles)
- * Pride Priority caregivers rank higher in results

6. Messaging

- * Basic messaging between caregiver and family
- * Notifications for new messages

7. Reviews

- * Families can review caregivers after completed jobs

8. Notifications

- * Booking requests
- * Messages
- * Status updates
- * Email + in-app

9. Badges / Trust

- * Show badges: Pride Verified, Pride Priority, Pride Family
- * Only verified caregivers visible

10. Admin Dashboard

- * View all users
- * View payments
- * Monitor caregiver status
- * Basic control tools

11. Location & ZIP Code Search (Simple Implementation)

We need users to search for caregivers by ZIP code and find nearby results.

Requirements:

1. Location Setup

- * Caregivers enter ZIP code or full address during signup
- * Convert this to latitude/longitude using Google Maps API
- * Store coordinates (lat/lng) in database

2. Search Function

- * Families enter a ZIP code
- * Convert ZIP → latitude/longitude
- * Return caregivers within a radius (start with 10–25 miles)

3. Sorting Results

Order results by:

- 1) Pride Priority Caregivers (top)
- 2) Distance (closest first)
- 3) (Later) Ratings

4. Basic Display

- * Show caregiver profiles in a list
- * Include distance from searched ZIP

Optional (later, not MVP):

- * Map view with pins
- * “Use my location” button

Goal:

Simple, fast location-based search using ZIP code that shows nearby caregivers and prioritizes Pride Priority users.

Goal:

Simple MVP where users can sign up, get verified, search by location, book care, and complete payments.

FINAL NOTE:

Additional Core Features (MVP Essentials)

Please include these basic but important features to make the platform functional and trustworthy:

1. Onboarding Flow

- * Simple step-by-step signup for both Caregivers and Families
- * Collect only essential info to start (don't overcomplicate)

2. Profiles (Caregivers)

- * Photo, bio, experience, services offered
- * Availability (basic schedule or text for now)
- * Display badges: Pride Verified, Pride Priority

3. Profiles (Families)

- * Name, basic info, optional description of care needs
- * Display “Pride Family” badge if applicable

4. Booking Status System

- * Status types:

- * Requested
- * Accepted
- * Completed
- * Cancelled

5. Basic Cancellation Handling

- * Allow users to cancel bookings
- * Simple status update (no complex refund logic yet)

6. Simple Payout Tracking (IMPORTANT)

- * Track how much caregivers earn per job
- * Track platform fee taken
- * (We don’t need full payout automation yet, just tracking)

7. Trust & Safety Basics

- * Report user button
- * Block user option
- * Display verification badges clearly

8. Terms & Consent

- * Users must accept terms before using platform
- * Caregivers must consent before background check

9. Mobile Friendly

- * Site must work well on mobile (most users will be on phone)

10. Basic Analytics (for admin)

- * Number of users
- * Number of bookings
- * Revenue tracking

Goal:

Keep everything simple but complete so users can sign up, trust the platform, book care, and complete jobs without confusion.
